Cincinnati Magazine taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a ringside seat on the issues shaping the region.

Reviews of more than two hundred automobiles, four-wheel drive vehicles, and compact vans are accompanied by specification data, the latest prices, and recommendations, as well as lists of warranties, and tips on financing and insurance.

START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

Outsider musicians can be the product of damaged DNA, alien abduction, drug fry, demonic possession, or simply sheer obliviousness. This book profiles dozens of outsider musicians, both prominent and obscure—figures such as The Shaggs, Syd Barrett, Tiny Tim, Jandek, Captain Beefheart, Daniel Johnston, Harry Partch, and The Legendary Stardust Cowboy—and presents their strange life stories along with photographs, interviews, cartoons, and discographies. About the only things these self-taught artists have in common are an utter lack of conventional tunefulness and an overabundance of earnestness and passion. But, believe it or not, they're worth listening to, often outmatching all contenders for inventiveness and originality. A CD featuring songs by artists profiled in the book is also available.

Abby Thompson's love life is a disaster. Everyone around her is blissfully falling in love, while she's busy binge watching anime. The last thing she needs is a walking temptation, in the form of ex-nerd turned dreamy astrophysics professor, Spencer Hill, aka her new client. It's her job to find Spencer his dream home, NOT fantasize about a ride on his space rocket. But the sparks between them are impossible to ignore, and soon, Abby is wondering if her losing streak in love could be turning around. Can she get over her anxiety he's got her out-brained, and can he let go of the past and the fear that the girl he crushed on in high school is still out of his league? Find out in the new feel-good romantic comedy from New York Times and USA Today bestselling author, Carey Heywood!

Examines the broad-ranging domestic roles of Iran's Islamic Revolutionary Guards Corps, assessing its influence over Iran's political culture, economy, and society and its ability to shape the political future of the Islamic Republic of Iran.--Publisher description.

Lined Notebook/Journal *6x9 Inch *108 pages *Soft Premium Matte Cover Finish *Positive Affirmation Journal/Notebook

A wide-ranging analysis of heavenly twin imagery in early Jewish extrabiblical texts. The idea of a heavenly double—an angelic twin of an earthbound human—can be found in Christian, Manichaeian, Islamic, and Kabbalistic traditions. Scholars have long traced the lineage of these ideas to Greco-Roman and Iranian sources. In *The Greatest Mirror*, Andrei A. Orlov shows that heavenly twin imagery drew in large part from early Jewish writings. The Jewish pseudepigrapha—books from the Second Temple period that were attributed to biblical figures but excluded from the Hebrew Bible—contain accounts of heavenly twins in the form of spirits, images, faces, children, mirrors, and angels of the Presence. Orlov provides a comprehensive analysis of these traditions in their full historical and interpretive complexity. He focuses on heavenly alter egos of Enoch, Moses, Jacob, Joseph, and Aseneth in often neglected books, including *Animal Apocalypse*, *Book of the Watchers*, *2 Enoch*, *Ladder of Jacob*, and *Joseph and Aseneth*, some of which are preserved solely in the Slavonic language. “This book is the first complete effort to show how some pseudepigraphical works develop several unique traditions about heavenly counterparts. It is particularly important for many scholars who do not have control of the Slavonic originals of the *Ladder of Jacob* and *2 Enoch*. Orlov also draws on a broad range of unfamiliar sources, including Manichaeian and Mandaean materials, which were often neglected by experts who previously investigated the heavenly counterpart imagery.” — Alexander Kulik, coauthor of *Biblical Pseudepigrapha in Slavonic Tradition*
