To me it remains the KB280DT - 4JB1-T. When the engine was introduced in South Africa, I guess it was the first Japanese turbo diesel engine to be widely used in South African bakkies. When speaking to some GM mechanics they see this as the best engine ever. It came at a time when bakkie owners who needed more power were replacing their engines with Ford Essex 3l V6.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The 1-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.
