In 1952 Mercedes-Benz astonished the racing world with the successes it achieved with its 300SL, exploiting an advanced space-type frame and aerodynamic body with gullwing doors. Already the subject of a Ludvigsen Library Series book, the racing 300SL inspired the creation of a production version, which first took flight in 1954. The 300SL stunned critics and experts alike with its fabulous performance-more than 150 miles per hour-exotic looks and superb build quality. Not just a pretty face, the 300SL was also extremely successful in competition on both sides of the Atlantic. The original coupe was followed by a roadster version in 1957; in all, 3,258 were made. Drawing on his unmatched archive of Mercedes-Benz photos, including coverage by Rudy Mailander and Edward Eves of the 300SL production line, Karl Ludvigsen presents the 300SL in all its glory. He also draws on his own experience as an owner of one of these great cars.

Bobby Zimmerman pilgrimaged to New York City's Greenwich Village just over a half century ago, seeking to visit his muse Woody Guthrie in the hospital and to launch a music career. He did both, and his first, eponymous album was released precisely 50 years ago. The rest is legend: Dylan the folk hero, Dylan going electric, Dylan and the Band, Dylan and the American ethos. Today, he stands as an always-touring icon. A national institution. It's time to celebrate the remarkable life of Bobby Zimmerman of Hibbing, Minnesota. A life in pictures, including shots from those who know him intimately, and knew him in the reclusive years in Woodstock, like Eliot Landy and Bob Cato . LIFE's original coverage of Dylan, Joan Baez and the downtown scene of the early 1960s . Excerpts from Dylan interviews through the years that make the story come alive, and get to the heart of this enigmatic man.
