2021 entry admissions timeline | University of Oxford

This is a joint programme between the Universities of Cambridge, Oxford and Loughborough, together with leading engine manufacturers and partners in the field. In the first year, all students study for a master’s degree in Future Propulsion and Power at the University of Cambridge.

Courses - University of Oxford

increased political will to address our common future. There was a time of optimism and progress in the 1960s, when there was greater hope for a braver new world, and for progressive international ideas. Colonies blessed with natural resources were becoming nations. The locals of co-operation and sharing seemed to be seriously pursued.
