In this article Nick Patterson describes the process of identifying, selecting and implementing solutions to problems. In the previous steps we have framed our problem, analysed it and identified the root cause.

Identifying, selecting and implementing solutions

1. Identify the root cause of the problem by collecting information and then talking with stakeholders. Combining existing research and information from your stakeholders can offer some insight into the problem and its causes. Consider data sources that could help you more clearly define the problem.

Problem Identification

In composition, using a problem-solution format is a method for analyzing and writing about a topic by identifying a problem and proposing one or more solutions. A problem-solution essay is a type of argument. "This sort of essay involves argumentation in that the writer seeks to convince the reader to take a particular course of action. In explaining the problem, it may also need to persuade the reader concerning specific causes" (Dave Kemper et al., "Fusion: Integrated Reading and Writing ...
