## Care and Natural Remedies

A wild cat's diet is based on meat and fish, although it's true that they also receive certain amounts of vegetables through their prey. This explains why the best diet for

# Download Free Natural

domestic cats should contain 40% protein and 26% fat. There are many products on the market that do not meet these percentages, which you can easily check on the package labels.

## **Natural Cat Food - BARF Diet For Cats | Natural Instinct**

The domestic cat's natural diet consists of small rodents and mammals. On average a prey item is 62% animal derived protein, 10% fat with 14% ash,

# Download Free Natural

which is mainly mineral content from bone (see the table below).

## **The Essential Guide To Cat Food Diets | Vet's Kitchen Blog**

It is widely known that cats have a dietary

# Download Free Natural

need for both  
calcium and  
phosphorous.  
Calcium is  
required by the  
body, not only  
for bones, but  
also for muscle  
control and ion  
balance.

## **Feline Nutrition - The Most Important**

# Download Free Natural

## **Decision For**

Keep in mind, however, that the best carbohydrates for cats are digestible sources like cooked brown rice or oatmeal – gluten-free and grain-free options like tapioca, sweet

## Download Free Natural

potato, or fresh fruits and vegetables are also a good option. Ideally, however, your cat's diet should contain no more than 10% carbohydrate from any source.
