For the most efficient and safest outline, turn to the Teeline Gold Word List. In alphabetical order it contains recommended Teeline outlines for over 12,000 words - the sort of words that might be expected to appear frequently in non-technical material.

The flexible Teeline system of shorthand is based on the English alphabet, and gives students scope for developing their own style of writing. This student pack consists of one copy of each of three "Teeline Gold" books - the course book, the workbook and the word list.

This introductory book contains sufficient theory to lay the foundation for higher speeds.

Following on from the "Teeline Gold Course Book", this is intended to develop students' speed. The book should enable teachers to structure their classes, once they have introduced the basic Teeline theory, by reviewing and extending the theory. It also develops the theory of word groupings.

An alphabetical list of common word groupings which encourages students to use more word groupings when taking shorthand dictation. It also explains the value of word groupings in building up speed and outlines grouping principles.

This student book includes an introductory section to outline important principles and theory to give students a firm foundation for learning. It provides a range of practice exercises to offer learners drill materials from 50 WPM to 100 WPM designed especially to build their speed and fluency.

This is the companion to the "Teeline Gold Course Book". Linked chapter-by-chapter it provides additional Teeline practice material and longhand transcription to reinforce classroom learning, improve outline and develop speed.

Aimed at journalism students, this work concentrates on the key terms and phrases they will encounter in their careers.
