ABCs of Socialism. by Ahjamu Umi. Published Thursday - November 19, 2020 . It ’ s not a stretch to say that during the last

one hundred years, the words socialism and communism have been two of the most controversial words and concepts on the planet. It's equally true that those two words/concepts are also widely and tragically misunderstood.

Slim, accessible, inexpensive, irreverent introduction to socialism by the writers of Jacobin magazine The remarkable run of self-proclaimed "democratic socialist" Bernie Sanders for president of the United States has prompted—for the first time in decades and to the shock of many—a national conversation about socialism. A New York Times poll in late November found that a majority of Democrats had a favorable view of socialism, and in New Hampshire in February, more than half of Democratic voters under 35 told the Boston Globe they call themselves socialists. It's unclear exactly what socialism means to this generation, but couple with the ascendancy of longtime leftwinger Jeremy Corbyn to the leadership of the Labour Party in the UK, it's clear there's a historic, generational shift underway. This book steps into this moment to offer a clear, accessible, informative, and irreverent guide to socialism for the uninitiated. Written by young writers from the dynamic magazine Jacobin, alongside several distinguished scholars, *The ABCs of Socialism* answers basic questions, including ones that many want to know but might be afraid to ask ("Doesn't socialism always end up in dictatorship?", "Will socialists take my Kenny Loggins records?"). Disarming and pitched to a general readership without sacrificing intellectual depth, this will be the best introduction an idea whose time seems to have come again.

Contributors include Nicole Aschoff, Alyssa Battistoni, Jonah Birch, Vivek Chibber, Danny Katch, Chris Maisano, Nivedita Majumdar, Michael A. McCarthy, Joseph M. Schwartz, Bhaskar Sunkara, Keeanga-Yamahtta Taylor, Adaner Usmani and Erik Olin Wright.

A "razor-sharp" introduction to this political and economic ideology makes a galvanizing argument for modern socialism (Naomi Klein) -- and explains how its core tenets could effect positive change in America and worldwide. In *The Socialist Manifesto*, Bhaskar Sunkara explores socialism's history since the mid-1800s and presents a realistic vision for its future. With the stunning popularity of Bernie Sanders and Alexandria Ocasio-Cortez, Americans are embracing the class politics of socialism. But what, exactly, is socialism? And what would a socialist system in America look like? The editor of *Jacobin* magazine, Sunkara shows that socialism, though often seen primarily as an economic system, in fact offers the means to fight all forms of oppression, including racism and sexism. The ultimate goal is not Soviet-style planning, but to win rights to healthcare, education, and housing, and to create new democratic institutions in workplaces and communities. A primer on socialism for the 21st century, this is a book for anyone seeking an end to the vast inequities of our age.

Argues that socialist renewal is the only viable means of achieving progress and freedom in the 21st century and illustrates the imperative for placing human values before doctrinaire political or solely monetary motivation. Reissue.

Communism, capitalism, work, crisis, and the market, described in simple storybook terms and illustrated by drawings of adorable little revolutionaries. Once upon a time, people yearned to be free of the misery of capitalism. How could their dreams come true? This little book proposes a different kind of communism, one that is true to its ideals and free from authoritarianism. Offering relief for many who have been numbed by Marxist exegesis and given headaches by the earnest pompousness of socialist politics, it presents political theory in the simple terms of a children's story, accompanied by illustrations of lovable little revolutionaries experiencing their political awakening. It all unfolds like a story, with jealous princesses, fancy swords, displaced peasants, mean bosses, and tired workers -- not to mention a Ouija board, a talking chair, and a big pot called "the state." Before they know it, readers are learning about the economic history of feudalism, class struggles in capitalism, different ideas of communism, and more. Finally, competition between two factories leads to a crisis that the workers attempt to solve in six different ways (most of them borrowed from historic models of communist or socialist change). Each attempt fails, since true communism is not so easy after all. But it's also not that hard. At last, the people take everything into their own hands and decide for themselves how to continue. Happy ending? Only the future will tell. With an epilogue that goes deeper into the theoretical issues behind the story, this book is perfect for all ages and all who desire a better world.

"Making Capitalism Great Again - How to Maximize America's Booming Economy Plus the ABCs of Socialism Versus Capitalism" will radically change the way that you build your overall business, market your product/service, treat your customers, speak to your customers, and take advantage of America's free enterprise system. But more importantly, the book contains wisdom that you can implement immediately in your business to start producing real results.

From the co-author of the #1 New York Times bestseller *Hamilton: The Revolution*, the stunning story of five American radicals fighting for their ideals as the country goes mad around them "Inspiring and entertaining." —David Brooks, *The New York Times* "It's not difficult to see why [Lin-Manuel] Miranda would have been attracted to [Jeremy] McCarter as a writing partner." —*The Wall Street Journal* "One of the exciting new nonfiction books this summer." —*Time* Where do we find our ideals? What does it mean to live for them—and to risk dying for them? For Americans during World War I, these weren't abstract questions. *Young Radicals* tells the story of five activists, intellectuals and troublemakers who agitated for freedom and equality in the hopeful years before the war, then fought to defend those values in a country pitching into violence and chaos. Based on six years of extensive archival research, Jeremy McCarter's dramatic narrative brings to life the exploits of Randolph Bourne, the bold social critic who strove for a dream of America that was decades ahead of its time; Max Eastman, the charismatic poet-propagandist of Greenwich Village, whose magazine *The Masses* fought the government for the right to oppose the war; Walter Lippmann, a boy wonder of socialism who forged a new path to seize new opportunities; Alice Paul, a suffragist leader who risked everything to win women the right to vote; and John Reed, the swashbuckling journalist and impresario who was an eyewitness to—and a key player in—the Russian Revolution. Each of these figures sensed a moment of unprecedented promise for American life—politically, socially, culturally—and struggled to bring it about, only to see a cataclysmic war and reactionary fervor sweep it away. A century later, we are still fighting for the ideals these five championed: peace, women's rights, economic equality, freedom of speech—all aspects of a vibrant American democracy. The story of their struggles brings new light and fresh inspiration to our own. Praise for *Young Radicals* "In this lively, if at times swooningly earnest, portrait of artists, activists, writers and intellectuals, McCarter chronicles a moment in American history when 'socialism, progressivism, modernism, and feminism all exploded at once.'" —*Newsday* "A brisk pace and sympathetic portraits make for an entertaining, well-researched history of a decade marked by ebullience, hope, and pain." —*Kirkus Reviews* "McCarter's prose is engaging, moving, and, at times, laugh-out-loud funny. Recommended for young radicals today who want to understand past attempts to change the world in the face of repression." —*Library Journal* (starred review)

A stirring blueprint for American equality, from the "breakout stars" (*The New York Times*) of the young new left *The Occupy* movement gave us energy and language, but its critics were quick to ask "What are the ideas?" *The Future We Want* is the answer. In a sharp, rousing collective manifesto, nineteen cultural and political critics under the age of thirty dismantle the usual liberal solutions to America's ills and propose something else. What would finance look like without Wall Street? Or the workplace with responsibility shared by all the workforce? From a campaign to limit work hours, to a program for full employment, to proposals for a new feminism, *The Future We Want* has the courage to think of alternatives that are both utopian and possible. Brilliantly clear and provocative, *The Future We Want*--edited by *Jacobin* magazine founder Bhaskar Sunkara and *The New Inquiry*'s Sarah Leonard, both in their twenties--harnesses the energy and creativity of an angry

generation and announces the arrival of a new political left that not only protests but plans.

“ Katch has done the impossible: he makes socialism sexy . . . eye-opening, inspiring, and funny . . . this book might turn you into a closet socialist ” (Judah Friedlander, actor and comedian). Opinion polls show that many people in the United States prefer socialism to capitalism. But after being declared dead and buried for decades, socialism has come to mean little more than something vaguely less cruel and stupid than what we have now. That ’ s not exactly going to inspire millions to storm the barricades. Danny Katch brings together the two great Marxist traditions of Karl and Groucho to provide an entertaining and insightful introduction to what the socialist tradition has to say about democracy, economics, and the potential of human beings to be something more than being bomb-dropping, planet-destroying racist fools. “ The most hilarious book about socialism since Karl Marx and his brother Harpo wrote their joke book. ” —Hari Kondabolu, filmmaker and comedian “ If The Communist Manifesto and America ’ s Funniest Home Videos had a baby, it would be Danny Katch ’ s new book. It ’ s a hilarious and fun way to think about what ’ s wrong with our world, how it could be different, and how we might get there. Keep an extra copy of Socialism . . . Seriously in your bag and hand it to the next person who asks you what socialism is all about; as long as that person is not your boss . . . seriously. ” —Brian Jones, actor, educator, and activist “ A lighthearted, easy read that packs an intro course on socialism into a short volume. With jokes that made me laugh out loud, and a lot of heart. Socialism is for lovers. Indeed. ” —Sarah Jaffe, Belabored podcast host
