Washington, Thomas Jefferson, James Madison, and James Monroe--from the bestselling historian and author of *James Madison*. From a small expanse of land on the North American continent came four of the nation's first five presidents--a geographic dynasty whose members led a revolution, created a nation, and ultimately changed the world. George Washington, Thomas Jefferson, James Madison, and James Monroe were born, grew to manhood, and made their homes within a sixty-mile circle east of the Blue Ridge Mountains. Friends and rivals, they led in securing independence, hammering out the United States Constitution, and building a working republic. Acting together, they doubled the territory of the United States. From their disputes came American political parties and the weaponizing of newspapers, the media of the day. In this elegantly conceived and insightful new book from bestselling author Lynne Cheney, the four Virginians are not marble icons but vital figures deeply intent on building a nation where citizens could be free. Focusing on the intersecting roles these men played as warriors, intellectuals, and statesmen, Cheney takes us back to an exhilarating time when the Enlightenment opened new vistas for humankind. But even as the Virginians advanced liberty, equality, and human possibility, they held people in slavery and were slaveholders when they died. Lives built on slavery were incompatible with a free and just society: their actions

contradicted the very ideals they espoused. They managed nonetheless to pass down those ideals, and they became powerful weapons for ending slavery. They inspired Abraham Lincoln and Frederick Douglass and today undergird the freest nation on earth. Taking full measure of strengths and failures in the personal as well as the political lives of the men at the center of this book, Cheney offers a concise and original exploration of how the United States came to be.

The First Amendment Religion Clause:
“Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof...” This book takes an in-depth look at the religion clause portion of the First Amendment using historical documents and letters. In chapter one examples are given of the historical reasons for why the Framers of the First Amendment (the Founding Fathers) thought it was necessary to list religion as part of the Bill of Rights in the manner that they did. In chapter two documentation is presented showing how they applied it during their times of service in government. The application of the 14th Amendment is examined along with whether or not it should be applied to the 1st Amendment based on the history of both. In chapter three a complete

analysis is made of Thomas Jefferson's "wall of separation" letter, and in chapter four an in-depth investigation is taken into Jefferson's Virginian Act for Establishing Religious Freedom, James Madison's Memorial and Remonstrance Against Religious Assessments, and Madison's Detached Memoranda essay on religion and government interaction. These documents, along with others examined in this book, display the Founding Fathers' views as to why there is a religious clause, and what its proper application should be between church (that is, religion) and state. This book also contains present day solutions for how the government could act legally and constitutionally regarding religion (and related religious books) and toward those who claim religious reasons as their motivation to physically harm others. History reveals the continued purpose and need for the Religion Clause in the Bill of Rights.
