Secrets of the Millionaire Mind reveals the missing link between wanting success and

achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking *Secrets of the Millionaire Mind*, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

A guide for aspiring African American entrepreneurs offers advice on how to overcome business challenges, take advantage of available opportunities, and find success in corporate America

In his previous bestsellers, *Think and Grow Rich* and *What Makes the Great Great*, Dennis Kimbro revealed the success secrets of highly touted entrepreneurs, corporate climbers, and Olympic athletes, as well as famous black Americans from George Washington Carver to Bill Cosby, Oprah Winfrey, and Jesse Jackson. In *What Keeps Me Standing*, he turns to another group of sages and mentors: the grandmothers who have long been the backbone of the African American family and community. Over a period of five years, Kimbro contacted one thousand grandmothers--women from a wide range of backgrounds and locations--asking, "If you had to write a one page letter to your children or the next generation, what would you tell them about life?" Their answers, collected here, show that success in life cannot be measured in terms of wealth and material goods alone. The lives they describe and the advice they proffer capture both a richness in spirit and a strong belief in the power of every individual to take charge of his or her own destiny. In the face of racism, both blatant and subtle, financial struggles, and personal setbacks, black grandmothers have helped their communities in thousands of tangible and intangible ways, providing support, inspiration, and love not only to their own children and grandchildren but also to neighbors, friends, and extended families. Filled with examples of how even the smallest acts of kindness and compassion can make a difference in the world, *What Keeps Me Standing* is a treasure trove of the wisdom that comes with years of experience, transformation, and growth. It is the perfect gift.

“By telling the little-known stories of six pioneering African American entrepreneurs, *Black Fortunes* makes a worthy contribution to black history, to business history, and to American history.”—Margot Lee Shetterly, New York Times Bestselling author of *Hidden Figures* Between the years of 1830 and 1927, as the last generation of blacks born into slavery was reaching maturity, a small group of industrious, tenacious, and daring men and women broke new ground to attain the highest levels of financial success. Mary Ellen Pleasant, used her Gold Rush wealth to further the cause of abolitionist John Brown. Robert Reed Church, became the largest landowner in Tennessee. Hannah Elias, the mistress of a New York City millionaire, used the land her lover gave her to build an empire in Harlem. Orphan and self-taught chemist Annie Turnbo-Malone, developed the first national brand of hair care products. Mississippi school teacher O. W. Gurley, developed a piece of Tulsa, Oklahoma, into a “town” for wealthy black professionals and craftsmen that would become known as “the Black Wall Street.” Although Madam C. J Walker was given the title of America’s first female black millionaire, she was not. She was the first, however, to flaunt and openly claim her wealth—a dangerous and revolutionary act. Nearly all the unforgettable personalities in this amazing collection were often attacked, demonized, or swindled out of their wealth. *Black Fortunes* illuminates as never before the birth of the black business titan.
