Edmond

Edmond Jouve, the author of this book, is a respected professor in Paris and he has captured the essence of Gaddafi quite remarkably. One could say that he would appear to be an admirer. Jouve not only speaks directly to the great man himself, but to those close to him; his only daughter Aicha Qaddafi, is an important and rare example of those who cooperated in the writing of this book.

My Vision by Muammar Gaddafi - Goodreads

This book, born from conversations with Muammar Gaddafi and political expert Edmond Jouve, retraces the leader's political, ideological and philosophical journey. He expresses his vision of African unity and North-South relations. He also explains his own vision for Islam and human rights in Libya.

In September 2003, the international embargo and sanctions imposed on Libya for more than a decade were raised by the UN Security Council. This book looks at the commitment of Libya's leader, Colonel Gaddafi, to seeing his country rejoin the international community after many years of isolation.

This biography covers the life and political actions of Muammar Qaddafi, the former dictator of Libya. Qaddafi was one of the most famous, and famously bizarre, political leaders of the modern age. Throughout 2011, he was frequently in the news during the uprising of the Libyan people against his dictatorship. This book discusses Qaddafi's quest for power and influence in world politics, his desire to earn a place in history as a great man, as well as his aptitude for reinventing himself again and again. Particular

attention is given to explaining the impact that Qaddafi's political experiments had on the people of Libya. Readers will learn about Qaddafi's childhood, rise to power, and merciless downfall as well as some of Libya's cultural and political history.

Why has Libya fallen apart since 2011? The world has largely given up trying to understand how the revolution that toppled Muammar Gaddafi has left the country a failed state and a major security headache for Europe. Gaddafi's police state has been replaced by yet another dictatorship, amidst a complex conflict of myriad armed groups, Islamists, tribes, towns and secularists. What happened? One of few foreign journalists to have lived in post-revolution Tripoli, Ulf Laessing has unique insight into the violent nature of post-Gaddafi politics. Confronting threats from media-hostile militias and jihadi kidnappings, in a world where diplomats retreat to their compounds and guns are drawn at government press conferences, Laessing has kept his ear to the ground and won the trust of many key players. Understanding Libya Since Gaddafi is an original blend of personal anecdote and nuanced Libyan history. It offers a much-needed diagnosis of why war has erupted over a desert nation of just 6 million, and of how the country blessed with Africa's greatest energy reserves has been reduced to state collapse.

How Libya has evolved from Ottoman province to international pariah to seething cauldron of rebellion. For more than four decades, Libya has been something of an enigma to outsiders. Ruled by the despotic and unstable Muammar Gaddafi since he led a military coup in 1969, it has vast oil wealth and one of the highest standards of living in

Africa. Yet it has also been one of the most prolific state sponsors of terrorism (supplying arms and explosives to the IRA, perpetrating the Lockerbie bombing) and dissent has, until recently, been crushed ruthlessly. In early 2011 a popular uprising against Gaddafi, a dictator nicknamed 'Mad Dog' by Ronald Reagan, finally looks as if he might be toppled from power, as the wind of change blows through North Africa and the Middle East. John Oakes, who lived and worked in Libya for eight years before the revolution, provides an essential guide to the country and its history, including what led Gaddafi to make Libya an international pariah and the events of the 2011 revolt.

This book examines the socioeconomic and political development of Libya from earliest times to the present, concentrating in particular on the four decades of revolutionary rule which began in 1969. Focusing on the twin themes of continuity and change, Ronald Bruce St John emphasises the full extent to which the revolutionary government has distorted the depth and breadth of the post-1969 revolution by stressing policy change at the expense of policy continuity. Following a brief look at pre-independence Libya, the author explores the way in which the fragility of the post-independence state, unable to contain rising Arab nationalist struggles and growing economic expectations, opened the way for the Free Unionist Officers led by Muammar al-Qaddafi to seize power. He then traces the progressive development of the revolutionary state through four stages: the consolidation of power to 1973 the projection of power to 1986 withdrawal and retrenchment to 1999 the redefinition of the state after 1999. Highlighting the issues facing the contemporary state and providing possible solutions, this book will be an important text for students of current affairs, history, North Africa and the Middle East.

This sweeping reference work covers every aspect of the Cold War, from its ignition in the ashes of World War II, through the Berlin Wall and the Cuban Missile Crisis, to the collapse of the Soviet Union in 1991. The Cold War superpower face-off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today. This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world-changing event, including wars, new military technologies, diplomatic initiatives, espionage activities, important individuals and organizations, economic developments, societal and cultural events, and more. This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict. The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War, which are followed by some 1,500 entries on key individuals, wars, battles, weapons systems, diplomacy, politics, economics, and art and culture. Each entry has cross-references and a list of books for further reading. The text includes more than 100 key primary source documents, a detailed chronology, a glossary, and a selective bibliography. Numerous illustrations and maps are inset throughout to provide additional context to the material. Includes more than 1,500 entries covering all facets of the Cold War from its origins to its aftermath, including all political, diplomatic, military, social, economic, and cultural aspects Incorporates the scholarship of more than 200 internationally recognized contributors from around the world, many writing about events and issues from the perspective of their country of origin Offers more than 100 original documents—a collection that draws heavily on material from archives in China, Eastern Europe, and the former

Soviet Union Provides hundreds of powerful images and dozens of informative maps detailing specific military conflicts and movements of various groups Includes a detailed chronology of important events that occurred before, during, and after the Cold War

By examining the system of authoritarianism in eight Arab republics, Joseph Sassoon portrays life under these regimes and explores the mechanisms underpinning their resilience. How did the leadership in these countries create such enduring systems? What was the economic system that prolonged the regimes' longevity, but simultaneously led to their collapse? Why did these seemingly stable regimes begin to falter? This book seeks to answer these questions by utilizing the Iraqi archives and memoirs of those who were embedded in these republics: political leaders, ministers, generals, security agency chiefs, party members, and business people. Taking a thematic approach, the book begins in 1952 with the Egyptian Revolution and ends with the Arab uprisings of 2011. It seeks to deepen our understanding of the authoritarianism and coercive systems that prevailed in these countries and the difficult process of transition from authoritarianism that began after 2011.

The Arab Spring was a watershed in Arab history, which gave young protesters the impetus to challenge established and entrenched dictatorial regimes for the first time, and to demand democracy. In this unique book, Muriel Mirak-Weissbach reviews specialist literature and provides a profile of the personality disorder of narcissism displayed by five leaders (Mubarak, Qaddafi, Ben Ali, Saleh and Assad), together with the related syndromes of paranoia, hysteria, and sociopathy. She argues that the responses of these leaders to the challenges they faced indicate that they were

Bookmark File PDF Vision Gaddafi Muammar Jouve Edmond John

psychologically incapable of facing reality, and indeed displayed pathological symptoms in clinging fanatically to power in the face of revolt. Mirak-Weissbach considers each of the five leaders in turn, examining their behavior during the upheavals as expressed in their public statements, speeches, interviews and courses of action. Thus she identifies patterns and similarities of behavior that serve to prove that the five "stony-faced old men in power" displayed specific pathological personality types in their responses to the political and cultural circumstances in which they were operating. A postscript to the book widens this context by identifying two cases of narcissism in contemporary American politics: George W. Bush and Sarah Palin. This highly topical, accessible and relevant book provides a psycho-historical insight into the actions and responses of the deposed dictators, viewed from a unique clinical psychological perspective.

This narrative chronicles Libya's, and to a vast extent Muammar Gaddafi's, remarkable past, meteoric rise to prominence, and convoluted reign, and introduces potential scenarios that may play out in the near term. □ Covers Libya from its ancient beginnings to the present in one easily readable volume □ Provides a complete history of Gaddafi's Libya and its revolution, including the historical antecedents, Gaddafi's rise to power, his reign, and his fall during the Arab Spring □ Offers projections about the post-Gaddafi era and prospects for Libya going forward □ Brings together the perspectives and insights of two authors with distinct yet complementary backgrounds □ Offers scholars and professors the detail they seek without intimidating the undergraduate or general reader
