Here is what parents have to say about the Seven Amazing Continents Journal: "This, like most of The Thinking Tree books is a researched based book which requires you provide internet or other books to be able to fill out the worksheets in this book. I bought this book for our homeschool history/geography studies for the next school year. What I like about this book is that not only are you doing book research you are coloring, challenging the student to answer questions about the continents, and finding the beauty of the world. This book can be shared with our 4 homeschoolers which means we save money. " (read more about it at the end of the review) "It is very thorough and can be used with one student over an extended amount of time. Or it can be used in a group of students, especially with teaching multi-level homeschooling by dividing the pages between your various children and watching the movies, sharing books, etc. This book was created so that you can make multiple copies for only the children in your household which is a win-win if you're wanting to save money and do this all together."
